Notice of Dr. Gary Hardwick's Policies and Practices to Protect the Privacy of Your Health Information

THIS NOTICE DESCRIBES HOW PSYCHOLOGICAL INFORMATION ABOUT YOU MAY BE USED AND DISCLOSED AND HOW YOU CAN GET ACCESS TO THIS INFORMATION. PLEASE REVIEW IT CAREFULLY.

I. Uses and Disclosures for Treatment, Payment, and Health Care Operations

I may use or disclose your protected health information (PHI), for treatment, payment, and health care operations purposes with your consent. To help clarify these terms, here are some definitions:

- “PHI” refers to information in your health record that could identify you.
- “Treatment, Payment and Health Care Operations” (TPO)
 - Treatment is when I provide, coordinate or manage your health care and other services related to your health care. An example of treatment would be when I consult with another health care provider, such as a family physician, psychologist, or psychiatrist.
 - Payment is when I obtain reimbursement for your healthcare. Examples of payment are when I disclose your PHI to your health insurer or my billing service to obtain reimbursement for your health care or to determine eligibility or coverage.
 - Health Care Operations are activities that relate to the performance and operation of my practice. Examples of health care operations are quality assessment and improvement activities, business-related matters such as audits and administrative services, and case management and care coordination and reviewing the competence or qualifications of health care professionals.
- “Use” applies only to activities within my office, such as sharing, employing, applying, utilizing, examining, and analyzing information that identifies you.
- “Disclosure” applies to activities outside of my office, such as releasing, transferring, or providing access to information about you to other parties.

II. Uses and Disclosures Requiring Authorization

I may use or disclose PHI for purposes outside of treatment, payment, and health care operations when your appropriate authorization is obtained. An “authorization” is written permission above and beyond the general consent that permits only specific disclosures. In those instances when I am asked for information for purposes outside of treatment, payment and health care operations, I will obtain an authorization from you before releasing this information. I will also need to obtain authorization before releasing your psychotherapy notes. “Psychotherapy notes” are notes I have made about our conversation during a private, group, joint, or family counseling session, which are kept separate from the rest of your medical record. These notes are given a greater degree of protection than PHI. I typically do not keep a separate record of psychotherapy notes so this policy will rarely apply to my patients. I typically keep all notes in a medical record note format, which is not considered a “psychotherapy note” under HIPAA.

You may revoke all such authorizations (of PHI or psychotherapy notes) at any time, provided each revocation is in writing. You may not revoke an authorization to the extent that (1) I have relied on that authorization; or (2) if the authorization was obtained as a condition of obtaining insurance coverage, and the law provides the insurer the right to contest the claim under the policy.

You must sign an authorization before I can release your PHI for any uses and disclosures other than those described in this Privacy Notice.

You have the right to restrict certain disclosures of PHI to a health plan if you pay out-of-pocket in full for your healthcare services.

It should be clearly understood that the Consents for the Use and Disclosure of PHI do not allow **Dr. Gary Hardwick**, or his employees to use or disclose PHI for any reasons other than for TPO. For **Dr. Gary Hardwick** to use and disclose PHI for purposes other than for treatment, payment and health care operations, see *Policy for Uses and Disclosures of PHI based on Patient Authorizations* and *Policy Uses and Disclosures of Public Health and Safety*.

III. Uses and Disclosures with Neither Consent nor Authorization

I may use or disclose PHI without your consent or authorization in the following circumstances:

- **Child Abuse and Neglect:** If I treat a child who appears to be the victim of physical, sexual, or emotional abuse or neglect, I must report such to the nearest law enforcement agency or child welfare. If a child is a witness to domestic violence and this appears to be a cause of emotional abuse, I am likewise obligated by law to report this. Also, if an adult patient discloses that they have abused or neglected a child, I must report this to law enforcement or child welfare as well. I am legally obligated to make such reports.
- **Adult and Domestic Abuse:** If I have reason to believe that a vulnerable adult (defined below) is suffering from abuse, neglect or exploitation, I am required by law to make a report to either the Oklahoma Department of Human Services, the district attorney’s office, or the municipal police department as soon as I become aware of the situation.
A “vulnerable adult” means an individual who is an incapacitated person or who, because of physical or mental disability, incapability, or other disability, is substantially impaired in the ability to provide adequately for the care or custody of him or herself, or is unable to manage his or her property and financial affairs effectively, or to meet essential requirements for mental or physical health or safety, or to protect him or herself from abuse, neglect, or exploitation without assistance from others.
- **Health Oversight:** If you file a disciplinary complaint with the Oklahoma State Board of Examiners of Psychologists, they will have the right to view your relevant confidential information as part of the proceedings.
- **Judicial or administrative proceedings:** If you are involved in a court proceeding and a request is made for information about your diagnosis and treatment and the records thereof, such information is privileged under state law, and we will not release the information without written authorization from you or your personal or legally appointed representative, or a court order. The privilege does not apply when you are being evaluated for a third party or where the evaluation is court ordered. You will be informed in advance if this is the case.
- **To comply with the law, law enforcement, or other government requests.**

- **Serious Threat to Health or Safety:** If you communicate to us an explicit threat to kill or inflict serious bodily injury to yourself or to kill or inflict serious bodily injury upon a reasonably identifiable person, and you have the apparent intent and ability to carry out that threat, I have the legal duty to take reasonable precautions. These precautions may include disclosing relevant information from your mental health records, which is essential to protect the rights and safety of others. I also have such a duty if you have a history of physical violence of which I am aware, and I have reason to believe there is a clear and imminent danger that you will attempt to kill or inflict serious bodily injury upon a reasonably identifiable person.
- **Worker’s Compensation:** If you file a worker’s compensation claim, you will be giving permission for the Administrator of the Worker’s Compensation Court, the Oklahoma Insurance Commissioner, the Attorney General, a district attorney (or a designee for any of these) to examine your records relating to the claim.
- **Use and Disclosure of Substance Use Disorder Records Subject to 42 CFR Part 2:** If applicable, your substance use disorder (“SUD”) records are protected by federal law under 42 C.F.R. Part 2 (“Part 2”). This law provides extra confidentiality protection and requires a separate, signed patient consent for the use and disclosure of SUD counseling notes. Each disclosure made with patient consent must include a copy of the consent or a clear explanation of the scope of the consent. It must also be accompanied by a written notice containing the language in 42 CFR Part 2.32(a). Disclosure of these records requires your explicit written consent, except in limited circumstances such as: (a) Medical Emergencies: to the extent necessary to treat you, (b) Reporting Crimes on Program Premises, (c) Child Abuse Reporting: In connection with incidents of suspected child abuse or neglect to appropriate state or local authorities, and (d) Fundraising: We will provide you with an opportunity to decline to receive any fundraising communications prior to making such communications. You may revoke this consent at any time.
- **Prohibitions on Use and Disclosure of Part 2 Records:**
- SUD records received from programs subject to Part 2, or testimony relaying the content of such records, shall not be used or disclosed in civil, criminal, administrative, or legislative proceedings against you unless based on your written consent, or a court order after notice and an opportunity to be heard is provided to you or the holder of the record, as provided in Part 2. A court order authorizing use or disclosure must be accompanied by a subpoena or other legal requirement compelling disclosure before the requested SUD record is used or disclosed.
- If SUD records are disclosed to us or our business associates pursuant to your written consent for treatment, payment, and healthcare operations, we or our business associates may further use and disclose such health information without your written consent to the extent that the HIPAA regulations permit such uses and disclosures, consistent with the other provisions in this Notice regarding PHI.
